

INVEST for SUCCESS

THE MANAGEMENT TEAM. From Left to right.
Lesley Duell, Jeet Sidhu, Jazz Sandhu, Sharon Sandhu.

Kristian's Fish & Chip Takeaway and Restaurant is a long established business based at the heart of the Fish Quay in North Shields. Jeet Sidhu, the owner, believes that investing in your business is an essential ingredient for success!

Sharon Sandhu with the "finished product"

Jeet bought Kristian's in September 2006 to add to his other Fish & Chip businesses in Holmfirth, Yorkshire and Durham City. He immediately embarked upon an investment programme.

Jeet has not only invested money in the business he has also invested time and energy to ensure that Kristian's has been provided with the sound foundation that will allow the business to thrive.

Kristian's is managed by Lesley Duell. Jeet Sidhu and his General Manager, Sharon Sandhu, are very aware that the success of Kristian's could not have been achieved without Lesley's management skills and her hard working, dedicated, positive staff. Jeet firmly believes that all of his staff at Kristian's have played a significant part in the success of the business to date.

Kristian's is open 7 days a week and as well as having a very busy take-away section it also has an 80 cover restaurant. 20 staff are employed to make sure that the Fish & Chips produced by Kristian's are fried to perfection and served with a smile!

Jeet's son-in-law, Jazz Sandhu summed up the Kristian philosophy, "Invest in your staff, invest in the fabric of your property, internal and external, and invest in the quality of the product you produce."

It all sounds very simple but it has taken hard work and creative thought, as well as hard cash, to achieve the results demanded by Jeet Sidhu and his team at Kristian's.

It is Jeet's intention to increase his estate of Fish & Chip Take-Aways and Restaurants and so he is positively "on the lookout" for high profile, busy units with a good reputation for producing and serving excellent quality Fish & Chips.

Invest in your staff, **invest** in the fabric of your property, internal and external, and **invest** in the quality of the product you produce.
