

2 Compartment Boxes

“It’s the way you sell ‘em!”

It’s also the way you present ‘em!

An important element of continuing to develop the image of Fish & Chips is to improve the presentation of the finished product.

The take-away food and food to-go markets are becoming more and more competitive. The Fish & Chip market has responded magnificently in the last 15 years in order to contend with the growing competition.

Using a 2 COMPARTMENT BOX will provide you with several benefits:

- By keeping the fish and the chips separate both products are protected - No sticking, No squashing
- When your customer arrives home and opens the box the Fish & Chips are as “Pan-Perfect” as possible
- A 2 Compartment Box provides you with the ability to manage portion control in your business
- A 2 Compartment Box provides you with the appropriate packaging to present your product professionally

2 Compartment Boxes are available in 3 sizes;

Small
9.5” x 7.5” x 2”
