Long-frying

As more pressure is put onto your production of Fish & Chips and the other fried food

In recent years a significant number of Fish Friers have moved from using “standard” frying fats to using LONG-FRYING LIFE oils & fats.

WHAT’S THE DIFFERENCE & WHY?

The answer to **WHAT’S THE DIFFERENCE?** is **RESISTANCE TO BREAKDOWN**.

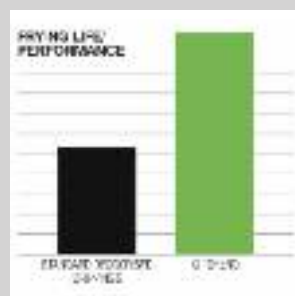

The answer to **WHY?** Is that they do not need to discard their frying oil or fat as frequently therefore they are recognising that it’s the **COST IN USE** and **NOT** the **BUYING PRICE**.

WHAT’S AVAILABLE?

Premier Jus For Premier Results

- Q Torenó is a refined and deodorised Irish Premier Jus Beef Dripping produced from the freshest and finest quality raw material. We make sure that we carefully select only caul and kidney fat as they are able to withstand frying at high temperatures; there is no soft body fat in Q Torenó.
- We’ve added a naturally occurring anti-oxidant, specifically developed for beef dripping, which gives it a longer frying life in comparison with ordinary, standard deodorised drippings.
- Q Torenó is the perfect choice if it’s long lasting, finest quality, Irish dripping that you require.

For An Improved Frying Performance

- Q Bronze is a refined and deodorised German beef dripping produced to an extremely high standard. It has the additional benefit of an anti-oxidant which makes it incredibly resistant to breakdown during use and gives it an extended frying life.
- Q Bronze is the perfect choice if it’s premium quality, deodorised, long-lasting German dripping that suits your operation.
- German, deodorised beef dripping

Code 004362

For a Longer Frying Life

- Q 10.8 is a refined and deodorised beef dripping produced in Belgium from the best quality raw material to ensure that it performs even under the most demanding deep frying conditions. It also has an added anti-oxidant to give it an extended frying life.
- If you’re looking for a consistently good dripping with an extended frying life then look no further.
- Packed in handy sized 4 x 2.5kg blocks, wrapped in parchment.

LONG - FRYING LIFE REFINED & DEODORISED BEEF DRIPPING

life oils & fats

you serve, it is definitely worthwhile looking at more robust, long-frying life oils & fats.

Traditionally, Fish & Chip Shops fried Fish & Chips in traditional frying ranges but things have changed!

A greater variety of products is now being served, most of which will break oil down faster than battered fish and chips. Meat products, breaded product, products with seasoning in the coating will all contribute to the premature breakdown of traditional frying oils & fats. Frying ranges have become more productive when producing fried food and this creates an additional pressure on the frying product being used.

Henry Colbeck Limited has developed a number of LONG FRYING-LIFE oils & fats. These products have been developed over time as we realised that there was a need for our customers to have a choice of frying oils & fats that would be more resistant to breakdown.

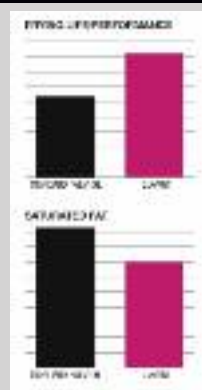

FEATURE

ALL VEGETABLE
SOLID FRYING FAT

Q AVANT SOLID VEGETABLE OIL

The Future of Frying

- Q Avant is at the forefront of frying technology; it has been developed specifically by The Q Partnership to offer fish friers an oil with a reduced saturated fat content when compared with more traditional frying oils.
- Q Avant is 30% lower in saturated fat in comparison with standard palm because of its unique blend of palm and high oleic sunflower oil. It has no hydrogenated fat.
- In addition, it has a 40% longer frying life than standard palm!
- If you want to promote to your customers the benefits of using oil with a reduced saturated fat content then Q Avant will more than measure up.

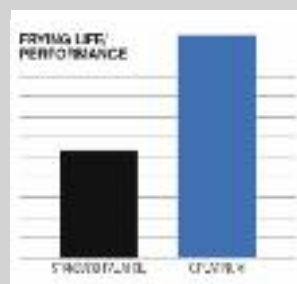

10kg
Code 000889

Q PLATINUM SOLID VEGETABLE OIL

Power & Performance

- Q Platinum brings together a blend of palm and hydrogenated palm to produce an oil with an exceptional frying life.
- Q Platinum is all about power and performance; it's the heavy duty frying oil for heavy duty frying operations.
- If you're looking for an all-vegetable oil which will resist breakdown in an environment with a high output then take a look at Q Platinum.

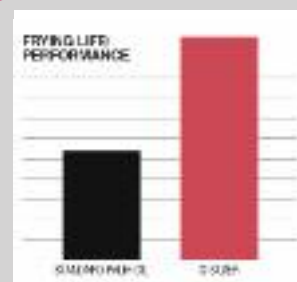

12.5kg
Code 001769

Q SILVER SOLID VEGETABLE OIL

Extreme Quality for Extreme Temperature

- Q Silver is a unique mix of palm, hydrogenated palm and rapeseed oil.
- The blend has been specifically developed to produce an oil with a distinctive savoury note and aroma which will interest friers who are looking for a vegetable oil with a similar taste profile to dripping.
- In addition, Q Silver has an exceptional frying life as the blend is resistant to breakdown at high temperatures and performs even under the most demanding frying conditions.
- If it's vegetable oil you're after which compares with dripping on taste and gives you a long frying life then Q Silver fits the bill.

Q Frying Fats

LONG - FRYING LIFE FRYING FAT

After four months of mystery dining, Fry Magazine's 50 Best Fish & Chip Takeaways & 10 Best Fish & Chip Restaurants 2017 have been announced.

The businesses made the list after an independent company sent mystery diners to everyone who entered the competition and assessed a range of front-of-house aspects from staff friendliness, cleanliness and product knowledge. Points were also awarded for the quality of the food with everything being critiqued from the crispness of the batter, to the texture of chips, to the flakiness of the fish.

With takeaways picking up additional points for details such as clean and tidy uniforms, the availability of a specials board, and cooking to order, the benchmark was set extremely high with the top 50 shops scoring 95% or over in their mystery dine and all ten restaurants scoring 93% or over. With a number of shops tying on the 95% cut-off point, over 50 takeaways made the prestigious list, of which more than half were new entrants to the list for 2017. While all successful chippies receive a certificate to display in their shop and an A2 window poster detailing their achievement, every entrant is sent a copy of their mystery dining sheet, providing valuable feedback and a chance for operators to improve their business. Reece Head, competition organiser, comments: "We would like to congratulate all those shops and restaurants that made our Top 50 and Top 10 for 2017. The pass mark was

once again set very high at 95% and to achieve that takes a lot of dedication and hard work from everyone involved, from the owner to the manager, to the frier and the staff. It really is a team effort. Running a fish and chip business gets harder every year with so much going on behind the scenes, so to serve up excellent quality food with a matching level of service and atmosphere day-in day-out deserves to be recognised. All the winners have proved they go the extra mile to give their customers the best possible experience, whether that's detailing the boat that catches the day's fish, running weekly specials, or simply taking time out to ask customers how their day has been. This is what puts them ahead and keeps customers coming back time and time again."

In alphabetical order, the 50 Best Fish & Chip Takeaways 2017 are:

Al's Plaice, Bedford, Bedfordshire
 Angel Lane Chippie, Penrith, Cumbria
 Bishopston Fish Bar, Horfield, Bristol
 Bizzie Lizzie's, Swadford Street, Skipton, North Yorkshire

 Fish Over Chips, Grange-over-Sands, Cumbria
 The Cod's Scallops, Sherwood, Nottingham

Invest in the future of your business

The NPD Group is a leading market research company that operates in 20 countries, interviewing millions of consumers every year. Their data is considered to be the most reliable and is used by the biggest and most successful brands in developing strategies for future growth.

A report issued by NPD earlier this year showed that Fish & Chip Shops now account for 5.6% of the U.K. takeaway market compared with 6.4% in 2009. The report said that the cause of this decline is the changing tastes of younger Brits (18-34 year olds) who are snacking more and more, particularly at lunchtimes. Burgers bars and Chicken franchises are cashing in on these findings with their offerings of lighter takeaway options and lunchtime meal deals. These outlets attract 35% of their daily visits at lunchtime, but for Fish & Chips it's only 24%.

The report stated that "36% of the people surveyed visit Fish & Chip shops because of the quality of their food and it is this reputation for quality that Fish & Chip shops should build on to bring in the younger generation and the lunchtime traffic by matching the big brand competitors with meal deals and lighter options".

The 18-34 year olds market is very profitable and if you can get this age group eating Fish & Chips then you are well on your way to ensuring that they continue to eat Fish & Chips as they get older. Attracting this group into your shop is a sound investment in the future of your business.

So, where should you start?

1. You need to be offering a lively meal deal. Grab yourself one of our FREE Meal Deal Posters and hang it where it can't be missed or see our article from Coca Cola on page 9, their marketing team will produce one specifically for you – and it's also FREE!

Already offering a meal deal? Okay... can your customers see what the deal is? There is no point in having a fantastic offer if it's not in full view of your customers. Make sure it's big and bold and obvious!

2. Add a Lite-BITE option to your existing portion sizes which will appeal to those who are looking for more of a snack-type meal at lunchtime rather than a belly busting one! This is really easy to put in place. Get one of our Lite-BITE posters and a pack of Lite-BITE boxes and you're ready to go. The boxes will ensure that you're serving the right size portion every time and that you're supplying this 'on-the-go' market with something which is suitable for them to eat from. Remember they may be going back to the office, the car or sitting outside and it is crucial that the food is easy to carry and easy to eat without any mess.

Outstanding Dripping for Outstanding Fish & Chips!

Henry Colbeck has a range of drippings sourced over many years from our, reliably consistent, BRC accredited refinery in Northern Ireland.

We use only locally sourced raw material from BRC approved plants within a 100 mile radius of the refinery. Not only does this provide full traceability, it also ensures that it is in the freshest condition when it arrives for processing.

There is no soft body fat; only the internal hard fat is used which is **the best and the most durable for deep frying.**

The result is outstanding dripping; helping you to produce outstanding Fish & Chips.
