NATIONAL FISH & CHIP DAY 1ST JUNE 2018

We proudly support

Your Plaice or Mine? Fish & Chip Shops Around the UK Celebrate National Fish & Chip Day

Fish & Chip shops up and down the UK helped celebrate our industries National Day by dressing up their shops, running competitions, raising money for charity and joining in on social media. Throughout the day #nationalfishandchipday remained the 3rd talked about topic on Twitter with it even making the 2nd spot in some regional areas!

In London, Kingfisher Fish & Chips, Winner of 2017's Chip Shop of the Year pitched up their mobile van at Trinity House and dished out free portions of Fish & Chips to workers and tourists alike whilst raising money for The Fishermen's Mission! The beach themed event attracted thousands of visitors and a range of handy props helped the public get involved.

Down in Portsmouth, Long Johns kindly provided Fish & Chips to service men and women on board The HMS Forth, Mersey and Tyne whilst members of The Royal Navy were interviewed by The BBC Breakfast's John Maguire on their fisheries protection fleet.

Here's a taster of what went on!

Royal Navy, Portsmouth

Kingfisher Fish & Chips, Trinity House, London

Millers, Haxby, York

Hook & Line, Leeds

Towngate Fisheries, Idle, Bradford

Cromars, St Andrews

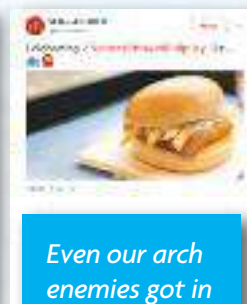

Angel of the North, Gateshead

Knights of Pontefract, West Yorkshire

Celebrity Chef's Gordon Ramsey and James Martin took to their Twitter pages to showcase and celebrate the Nations most savoured dish, whilst other high-profile celebrities and brands also joined in **#nationalfishandchipday** on Twitter, reaching thousands of users

Even our arch enemies got in on the act!

COLBECK CELEBRATIONS!

To celebrate **National Fish & Chip Day 2018** we ran a social media competition, gave the Angel of the North a NF&CD make over and wore official merchandise to help raise awareness.

Staff at both our Coatbridge and Gateshead depots also took part in the **National Fish & Chip Relay** in the week building up to National Fish & Chip Day as well as enjoying a chippy lunch on the day.

To celebrate National Fish & Chip Day 2018 we ran a social media competition, gave the Angel of the North a NF&CD make over and wore official merchandise to help raise awareness.

Used Cooking Oil Collection & Recycling

Bill Colbeck

As a company we have been processing and packing edible oil since 1893. In 2006 we started to collect our customers' Used Cooking Oil (UCO) as an additional service in the years following the BSE outbreak which caused the Government to stop farmers from feeding waste foods such as UCO to farm animals. This situation created a UCO disposal problem for our customers and our new service created the perfect solution.

Bill Colbeck
Chairman

Turning Used Cooking Oil to Green Energy

Things have certainly changed and UCO is now regarded as a vital source of Green Energy. The energy created from UCO produces very low levels of CO₂, to the benefit of our attempts to reduce Global Warming.

To make Green Energy the UCO must be processed and cleaned and, at first, it was not worthwhile investing in UCO processing equipment as we were not collecting enough to warrant it. In time our collected volumes have grown sufficiently to allow us to make the commercial investment in a UCO Recycling Plant where we now process UCO ourselves.

We spent a considerable amount of time and effort looking at various UCO processing methods across the UK and Europe and in Europe many of the plants in no way met the environmental and hygiene standards that, as a company, we would accept! However, we did find a processor in Germany who processes waste organic material, including UCO, cleanly and hygienically and knew we could realise our vision by working with Wichelmann's – the manufacturer of their processing plant.

We made several visits to their factory in Northern Germany to discuss our needs with the owner Herr Bernd Wichelmann, until we were satisfied that the plant that they proposed would give us what we wanted – a clean and hygienic processing system.

It has taken us three years of intense activity and refinements to develop a processing system that fits our purpose and we are delighted to report that the Recycling Plant was brought into operation in March this year.

We are extremely fortunate to have an excellent Plant Manager and Supervisor, Tony Armstrong and Jeff Wilkinson, who have the operational skills required to run this complicated plant and who, along with their team, are absolutely dedicated to - and proud of - this 'state of the art' equipment.

Our UCO Recycling Plant operates to strict Environmental Permitting regulations and we are working to ISO 14001 standards. We source and sell 'fresh' oils and fats, collect UCO and now process it. This is known environmentally as a 'cradle to cradle' approach and you and your UCO are part of this valuable virtuous circle.

How green is that?

1

The Recycling Process

The process starts with Fatboxes full of solid UCO being placed in our 'warm room' where the UCO is melted. After this the melted UCO is vacuum pumped through a series of filters which extracts unwanted elements such as fine particles of food. The filtered UCO is then pumped through a Heat Exchanger, where the temperature of the UCO is raised before it is released into the settlement tank.

In this tank the constituent parts of the UCO separate out. The oil floats on top of the fine food particulate which, in turn, floats on top of the water that has separated out of the oil. This process takes about 36 hours and the longer we allow the UCO to settle, the more complete the separation.

After the separation process, the UCO itself, only contains 1% of water. The separated water and food particles at the bottom of the tank are pumped off for use in an Anaerobic Digestion plant.

The processed UCO is collected by tanker for use either to generate electricity or to process into bio diesel. In the UK it is stipulated that diesel fuel sold at the pump must contain a minimum 4% Bio fuel. In Germany the minimum is 10%!!

Our new Recycling Plant has created four new jobs and we see this as a very positive investment in the local economy, the environment and the fight against Global warming – as well as the future of Henry Colbeck Limited.

CELEBRATING
125
YEARS
1893-2018

What's Cooking? Fish & Chips and Fast Food Exhibition is back and it's in Edinburgh! Sunday March 3rd

Royal Highland Centre
The Lowland Hall
Edinburgh

We'll have regular updates on our website and in our email newsletter.

If you haven't subscribed to receive our emails, you can do so at **www.colbeck.co.uk**

As well as exhibition news we'll keep you updated about offers and new products.

What would you like to see?

If you have any ideas for the exhibition drop us a line -
marketing@colbeck.co.uk

Your new look paperwork

You've probably noticed that your statements, delivery notes and invoices have changed!

In March this year we rolled out a new computer system to replace our existing one which had been in place for over 30 years! The old system was becoming out-dated which was limiting integration with modern technology and preventing us from developing our customer service for the future.

Putting a new system in place hasn't been without its challenges and a little bit of pain! You may have experienced some of it with us! We have been working very hard in the background to ensure that any issues are addressed as soon as we are aware of them.

One of the opportunities it has given us is to refresh and streamline the paperwork that we send out to you. The invoices, delivery notes and statements are now smaller making them much easier to handle and file. Even better, you can choose to receive a copy of your invoice and credit memo via email, once a week. If you would like us to do this, all you have to do is send an email to **marketing@colbeck.co.uk** with your account number and the wording 'Email Docs' in the subject title and we'll sort it for you.

Over the next couple of pages, we've set out guides to the new paperwork to help you find exactly what you are looking for.

You can choose to receive a copy of your invoice and credit memo via email.

The Coolest Drinks in the World

Each pack of Shmoo Thick Milkshake Mix makes either 86 x 20oz shakes or 120 x 12oz shakes. Every tub is supplied with 86 x 20oz cups, 86 x domed lids and 86 x straws.

Available in 4 delicious flavours;

Shmoo Shake Powder 1.8kg

Strawberry Code 021187

Chocolate Code 021188

Banana Code 021189

Vanilla Code 021576

**Only
£32.00**

Shmoo - Low in Sugar

When mixed to recommended instructions the thick shake is less than 6% added sugar per drink.

Shmoo - Low in Fat

The only fat in Shmoo comes from the fresh milk you use! Semi-skimmed is recommended.

Shmoo - Great for Vegetarians

Shmoo contains no animal products (apart from the micro mallows topping that contains a little gelatin). There is some milk powder in the mix, so it's not recommended for vegans.

Shmoo - No artificial colours flavours or sweeteners.

Shmoo is School Compliant and is served in many schools across the UK.

Shmoo - Gluten Free

There is an increasing demand for Gluten free products. Shmoo has always been gluten free.

puts other oils in the shade

- ☀ Longer frying life
- ☀ Low in saturated fat
- ☀ No hydrogenated fat
- ☀ No additives

* Randomised results available on request

High Oleic Sunflower Oil

...has a potential frying life TWICE that of standard rapeseed oil.

...contains only 9% saturated fat compared to 48% in palm oil

There are two types of Sunflower Oil - Standard and High Oleic. They are produced from two very different strains of Sunflower seeds.

Standard Sunflower Oil is high in polyunsaturated fat which makes it unsuitable for deep-frying.

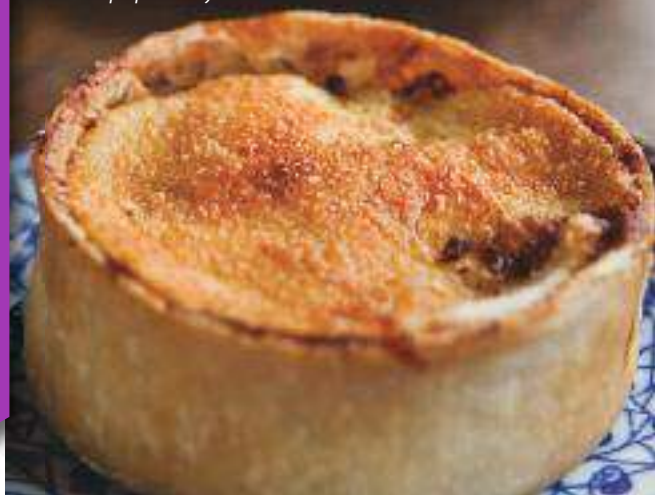

High Oleic Sunflower Oil is high in monounsaturated fat and it is this high concentration of monounsaturates that makes it ideal for deep frying.
