### Q Silver

#### *Extreme Quality for Extreme Temperature*

Q Silver is a very unique mix of palm, partially hydrogenated palm and rapeseed oil.

The blend has been specifically developed to produce an oil with a distinctive savoury note and aroma which will interest friers who are looking for a vegetable oil with a similar taste profile to dripping.

In addition to its unique flavour, Q Silver has an exceptional frying life as the blend is resistant to breakdown at high temperatures and performs even under the most demanding frying conditions.

If it's vegetable oil you're after which compares with dripping on flavour and gives you a long frying life then Q Silver fits the bill.

### Q Platinum

#### *Power & Performance*

Q Platinum brings together a blend of palm and partially hydrogenated palm to produce an oil with an exceptional frying life.

Q Platinum is all about power and performance; it's the heavy duty frying oil for heavy duty frying operations.

If you're looking for an all-vegetable oil which will resist breakdown in an environment with a high output then take a look at Q Platinum.

### Q Avant

#### *The Future of Frying*

Q Avant is at the forefront of frying technology.

Q Avant is 30% lower in saturated fat in comparison with standard palm because of its unique blend of palm and high oleic sunflower oil. It has no hydrogenated fat.

In addition, it has a 40% longer frying life than standard palm.

If you want to promote to your customers the benefits of using oil with a reduced saturated fat content then Q Avant will more than measure up.

### Q Toreno Premier Jus

#### Premier Jus for Premier Results

Q Toreno is a refined and deodorised Irish Premier Jus Beef Dripping.

It is produced from the freshest and finest quality raw material. The processors carefully select only caul and kidney fat because of their ability to withstand frying at high temperatures. Q Toreno contains no soft body fat.

Q Toreno contains a naturally occurring anti-oxidant, specifically developed for beef dripping, which gives it a longer frying life in comparison with ordinary, standard deodorised drippings.

Size: 2 x 5kg Available in England Only

# Liquid Vegetable Oil

## Henry Colbeck Rapeseed Oil

### Bottle-in-a-Box

A quality, refined and deodorised oil that is ideal for both deep and shallow frying.

It is flushed with nitrogen to eradicate all traces of oxygen which assists in prolonging the frying-life of the oil.

It contains an anti-foaming agent, E900 (DMPS), which also helps to give the product an extended frying-life.

Size: 20 litres  
Code 000240

Size: 10 litres  
Code 000304

## Perform Long Life Vegetable Oil

### Bottle-in-a-Box

- 7% Saturated Fat
- Up to 30% Longer Frying Life
- No hydrogenated Fat

Perform is a fully refined and deodorised rapeseed oil with only 7% saturated fat. It contains a natural anti-oxidant that delivers up to 30% longer frying life than standard rapeseed oil.

It is flushed with nitrogen to eradicate all traces of oxygen which assists in prolonging the frying-life of the oil.

Size: 20 litres  
Code 000762

## Q Plus

### Long Lasting!

Q Plus is a semi-solid frying oil made from a blend of two premium quality frying oils; palm and rape seed. It has no hydrogenated fats and the specific blend of Q Plus gives it a frying life which is three times longer than that of standard liquid vegetable oil.

It's the ideal choice if you're currently using an ordinary liquid vegetable oil and need a product with a longer frying performance.

Size: 15 litre plastic tub  
Code 001761

# Oils & Fats

## Liquid Vegetable Oil

### eclipse®

#### High Oleic Sunflower Oil

eclipse® is produced from a very specific strain of sunflower seeds which make it high in monounsaturated fat. It is this high concentration of monounsaturates that makes it ideal for deep frying.

Longer frying life

Low in saturated fat

No hydrogenated fat

No additives

Size: 20 litres

Code 000158

#### Henry Colbeck Sunflower Oil

##### Bottle-in-a-Box

A pure, bright and clear oil with no additives.

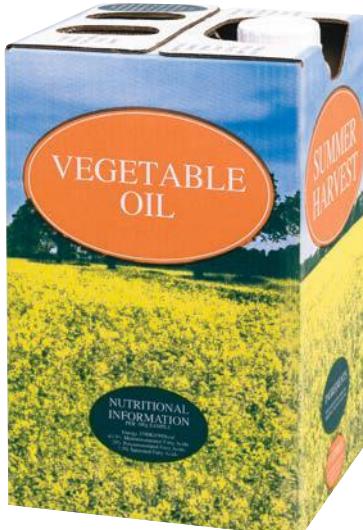

It is flushed with nitrogen to eradicate all traces of oxygen which assists in prolonging the frying life of the oil.

Size: 6 x 2kg  
Code 013175

## Butter Substitute

### Whirl

Whirl is a liquid vegetable oil with butter flavouring so it works in the same way as a vegetable oil but still has that much desired buttery taste. It has all the cooking applications of butter but with added advantages;

- Health - Lower in saturates and cholesterol
- Convenience - Easy to handle and no need to refrigerate
- Cost in use - More cost effective than butter

Size: 3 x 4 litre  
Code 013166

## Olive Oil

### Fontoliva Extra Virgin Oil

Made from the first pressing of selected olives, Fontoliva Spanish Extra Virgin Olive Oil has a distinctive premium flavour and rich taste. This versatile oil is ideal as a salad dressing or seasoning for soups and stews. Serve as a dipping oil with an accompaniment of balsamic vinegar or fresh herbs and a selection of breads for an authentic Mediterranean experience. It can also be used for shallow frying, griddling and sauteing.

Size: 5 litres  
Code 000173

### Fontoliva Pomace Olive Oil

Offering a fine delicate flavour, this Spanish Pomace Olive Oil is produced from the final extraction of oil from the olive. Ideal for griddling, sauteing, shallow frying and as a salad or "drizzle" oil.

Size: 5 litres  
Code 000495
