WHAT'S NEW?

LIFE ON THE VEG!

If you're not offering meat-free alternatives on your menu, you could be missing out on a valuable sector of the eating-out market.

A recent report from Mintel showed that the UK market for meat-free food is **worth a staggering £572m** and supermarkets in the UK are stocking more vegan products to keep up with demand.

Consumers have a variety of reasons for eating less meat, with health reasons, animal welfare and the environment being the big motivators. So, it's not just non-meat eaters that you'll attract, it's those who are looking to have meat free days and those who are simply looking for something different.

We've had a great response to our new meat-free products and we now have **FREE** posters and window stickers available!

Ask your Henry Colbeck Sales Contact for yours!

We've got FREE Posters available, plus FREE Window Stickers to attract passing customers into your shop!

Don't miss out on this profitable market!
