A GUIDE TO OUR PRODUCTS & SERVICES

More Than Just a Supplier!

Welcome

Thanks for choosing to read our 2023/2024 Products & Services Guide and a very warm welcome to Henry Colbeck, our family-owned specialist wholesale supplier to Fish & Chip Shops, Takeaways, Fish & Chip Restaurants and the Fast Food Market

My Great Grandfather Henry Colbeck established the business 130 years ago in Newcastle upon Tyne and my Father, Bill Colbeck (our Chairman) opened a Scottish depot in Coatbridge, Lanarkshire 25 years ago. Working with a talented Board of Directors and a dedicated team of 150 employees, my wife Georgina and I are committed to continuing the standards and ethos of the company into the future and working with our customers, suppliers and industry bodies to champion the Nation's Favourite – Fish & Chips.

Diversity in the 'food to go' market, increasing customer and consumer sophistication and environmental awareness, have all seen our business evolve and become the leading

innovator in the Fish & Chip Market. Indeed, one of our key business aims is to develop new products and ideas to help our customers stay ahead of the competition and provide you with the best solutions to meet the needs of your business.

We have been at the forefront of developing environmentally-aware corrugated packaging and bio-packaging and have driven home the Lite-BITE® message to offer a wider choice of portion sizes to satisfy all appetites and to help the Fish & Chip sector compete in the 'food to go' marketplace, especially during lunchtime. There have been significant advances in the way Frozen At Sea fish is caught, sized and graded to deliver product consistency and we are pleased to be chosen business partners with fish suppliers Rammi and Norebo, amongst others. We are always looking for ways to help you grow your business.

Behind the scenes we continue our strategy of inward investment into our business to build for the future and to give both our valued customers and employees reassurance that we are focussed on quality and the process of continuous improvement. We collect and recycle used cooking oil as part of our service. This means that if you

choose to buy your oils and fats from us and we collect the used oils and fats, we will process and recycle them, which makes you part of an environmentally virtuous circle of product recycling from 'cradle to cradle' – a **great news story to promote to your customers!**

We pride ourselves in being 'More Than Just A Supplier' and this guide has been put together to provide you with a comprehensive guide to the products we sell, to give you an insight into our company and to reassure you that Henry Colbeck is the business partner that you can trust. I hope you enjoy browsing through this brochure and that you find what you are looking for – **if not then don't hesitate to call us.**

If you are an existing customer, I'd like to thank you for choosing Henry Colbeck to be your trusted business partner. If you are new to the company, I hope you will choose us and we look forward to welcoming you into the family.

Thank you for your interest in Henry Colbeck – we wouldn't be in business without you!

Douglas Colbeck
Sales Director

Why Choose Us?

- We are a family business with over 130 years' experience dedicated to supporting the Fish & Chip and Catering Industry.
- You will have your own dedicated regional Sales Manager and Customer Service Advisor to support you and your business. You will usually have a regular delivery driver too.
- We offer a 'Save + Select' Customer Rewards Club – the only customer loyalty scheme in the industry.
- We stock over 1,500 industry specific products, with new products and concepts added regularly.
- Scottish & English regional specialities are catered for.
- We offer high quality own brand products – Q Frying Fats, 42nd Street Classic Sausages, Chicken & Burgers, Henry's Pies and 'Hook & Fish' packaging.
- We are industry innovators e.g. Lite Bite concept, Q Oils & Fats and Bio packaging.
- We are MSC Fish, ISO & BRC accredited. We are also working to an ISO 1400 standard for Environmental Management.
- We buy and recycle your used cooking oil.
- Our annual trade exhibition is a 'must visit' event with over 80 stands, at venues in Scotland, Tyneside and Yorkshire.
- We will send you 'What's Hot!' our bi-monthly magazine of articles, offers and competitions.
- We offer flexible ways to pay. You can pay by card to the driver or over the phone or we accept bank transfer, direct debit or cash.
- We deliver in temperature-controlled vehicles with data loggers and printouts.
- Our regular deliveries (in some places twice weekly) are made in our dedicated and reliable fleet of bespoke vehicles.
- Our depot Trade Counter Collection Service offers additional savings over list price.
- We are part of the Q Partnership Group, with two other family businesses Friars Pride and VA Whitley giving us stability and supply chain benefits.
- We invest in our customers and are industry sponsors of Fish & Chip Shop of the Year and National Fish & Chip Day.
- We are active members of the National Federation of Fish Friers, National Edible Oils Distributors Association, Foodservice Packaging Association, Frozen at Sea Fillets Association and Roundtable on Sustainable Palm Oil.
- Our main aim in business is to provide the very best customer service possible – in everything we do we aim to be 'more than just a supplier!'
- After all, our employees are company shareholders too and they are invested in offering you the best customer service!

The founder of the company
Established in 1893 on Newcastle's Quayside

In business together for 130 years!

We're so grateful to all of our valued Customers, Suppliers, Colbeck Colleagues and the wider Fish & Chip Industry who have contributed to our 130-year journey. From agricultural beginnings, to selling 'superb motor oil', being 'The Caterers Fat Friend' and now focussing on being 'More Than Just A Supplier', our business has developed and we think our founder Henry Colbeck would approve.

The timeline shows some highlights over the years, but whilst we're proud of our history, we're focussed on our commitment to the future. In 2023 we'll be supporting the industry to the best of our ability, from rejuvenating our Save + Select Rewards Club to sponsoring both National Awards and National Fish & Chip Day, through to showcasing new initiatives to grow Fish & Chip and catering businesses. We're always open to suggestions to how we can support you and the industry, so please get in touch at marketing@colbeck.co.uk.

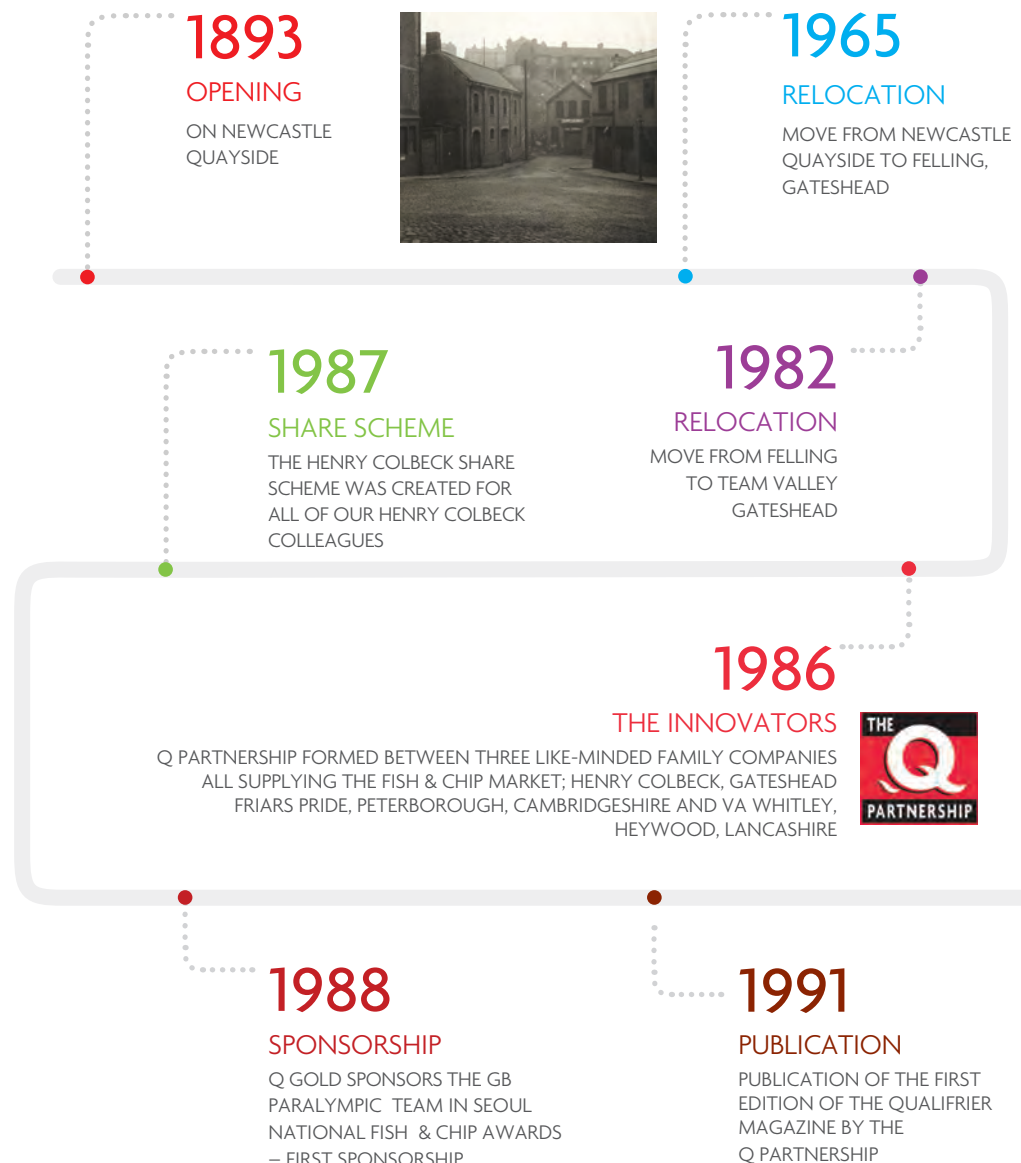

Warmest thanks and best wishes to you all.

Douglas, Georgina, Bill & Isobel Colbeck & our Board of Directors:

Paul Holliday - MD, **Michael Shone** – Purchasing Director,

Hugh O' Brien – Operations Director and **Matt Worsnop** – Commercial Director

OUR EXCLUSIVE CUSTOMER REWARDS CLUB

We love rewarding our customers and our Save+Select RewardsClub is all about rewards.

You don't have to register to be part of it; we'll sign you up as soon as you open an account with us.*

What is Save+Select?

It's our Exclusive Customer Reward Club.
The number next to the symbol tells you how many points are allocated to that particular product.

Automatic enrolment and it's FREE to join!

How does it work?

Automatically collect points when you buy.
Points available on over 600 products.
Find product points values online and in our magazines & brochures.

The more you buy, the more points you collect!

How many points do I have?

Ask your sales contact.
We will send you statement updates.

How do I redeem my points?

Head online to our website.
Complete the online form, to choose your rewards, or complete your order form.
Please allow 28 days to receive your rewards.
Redeem whenever you want (£10 minimum).

What are my points worth?

Exchange your points for:

- Love2Shop Gift Cards (instore)
- Love2Shop Gift Codes (online)
- Amazon Gift Cards
- Sainsbury's Gift Cards
- Supplier £ credits on your account and pay for goods.

Which reward will you choose?

LOVE2SHOP

Love2shop e-Gift Card

Our Love2shop e-Gift Card can be exchanged for over 40 popular e-gift cards, including Argos and Primark.

Sainsbury's Gift Cards

There's something for everyone at Sainsbury's! Choose from food & drinks, entertainment, homewear, TU clothing and electricals. Plus, when you spend them you can claim Nectar Reward Points too – Bonus!

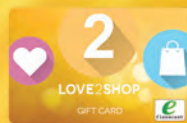

Henry Colbeck Credit Rewards - 10% Extra

Why not use the points you've saved against your account and we'll apply it as a credit to you – but this year we'll add 10% extra automatically!

The Fishermen's Mission

Any donation you can afford would be gratefully received. Thank You.

Love2shop

Our most popular card can be spent in over 90 popular stores including Marks & Spencer, Argos and TK Maxx.

You can also redeem at Love2shop Holidays - a one stop shop for all your travel and holiday needs including package holidays, UK and European city breaks, cruises, hotels, car hire, airport hotels with parking and much much more

Amazon.co.uk

When you want to give that special someone just what they're looking for, Amazon Gift e-Codes or Cards are the perfect solution.

To redeem your points visit www.colbeck.co.uk/save-select, fill in your details and we'll get your rewards delivered to you.

DON'T LET IT GO TO

We buy your Used Cooking Oil!

Let your customers know your green credentials and display our FREE poster!

TURNING USED COOKING OIL INTO GREEN ENERGY

As a company we have been processing and packing edible oil since 1893.

In 2006 we started to collect our customers' Used Cooking Oil (UCO) as an additional service in the years following the BSE outbreak which caused the Government to stop farmers from feeding waste foods such as UCO to farm animals. This situation created a UCO disposal problem for our customers and our new service created the perfect solution. Things have certainly changed, and UCO is now regarded as a vital source of Green Energy. The energy created from UCO produces very low levels of CO₂, to the benefit of our attempts to reduce Global Warming.

To make Green Energy, the UCO must be processed and cleaned, and as our collected volumes have grown, this increase has allowed us to make the commercial investment in our own UCO Recycling Plant where we now process all UCO that we collect.

Before work began on the plant, we spent a considerable amount of time and effort looking at various UCO processing methods across the UK and Europe and in Europe many of the plants in no way

met the environmental and hygiene standards that, as a company, we would accept! However, we did find a processor who processes waste organic material, including UCO, cleanly and hygienically and knew we could realise our vision by working with the manufacturer of their processing plant.

We made several visits to their factory to discuss our needs until we were satisfied that the plant that they proposed would give us what we wanted – a clean and hygienic processing system.

It took us three years of intense activity and refinements to develop a processing system that fits our purpose and our newly built Recycling Plant was brought into operation in March 2018. It operates to strict Environmental Permitting regulations and we are working to ISO 14001 standards.

We source and sell 'fresh' oils and fats, collect UCO and now process it. This is known environmentally as a 'cradle to cradle' approach and you and your UCO are part of this valuable, virtuous circle.

How Green Is That!

WASTE

THE RECYCLING PROCESS

The process starts with Fatboxxes full of solid UCO being placed in our 'warm room' where the UCO is melted. After this, the melted UCO is vacuum pumped through a series of filters which extracts unwanted elements such as fine particles of food. The filtered UCO is then pumped through a Heat Exchanger, where the temperature of the UCO is raised before it is released into the settlement tank.

In this tank the constituent parts of the UCO separate out. The oil floats on top of the fine food particulate which, in turn, floats on top of the water that has separated out of the oil. This process takes about 36 hours and the longer we allow the UCO to settle, the more complete the separation.

After the separation process the UCO only contains 1% of water. The separated water and food particles at the bottom of the tank are pumped off for use in an Anaerobic Digestion plant.

The processed UCO is collected by tanker for use either to generate electricity or to process into bio diesel in the UK it is stipulated that diesel fuel sold at the pump must contain a minimum 4% Bio fuel.

Did You know? ALL edible Oil and Fat can be put in the same bin? Liquid, solid, palm, dripping & kebab fat.

Our Recycling Plant has created new jobs and we see this as a very positive investment in the local economy, the environmental and the fight against Global warming - as well as the future of Henry Colbeck Limited.

Fish Matters!

Henry Colbeck is a significant supplier of Frozen-at-Sea Fish and IQF Fish to the Fish & Chip Market in the U.K.

Our direct commercial links with many deep-sea trawler companies allow us to offer a wide range of fish sourced from the sustainable fishing grounds of the North Atlantic and Barents Seas. The suppliers we work with are all members of the MSC (Marine Stewardship Council) and/or the Icelandic Responsible Fisheries scheme. In addition, Henry Colbeck is MSC Certified. The purpose of these schemes is to promote sustainable fishing and to safeguard seafood supplies for future generations.

Our Key Trawler Partners

- RAMMI
- Glacialis

Henry Colbeck
is MSC Certified
MSC-C-51570

The Sustainability of FAS Fish Stocks

FAS Fish are caught by large modern vessels operating in carefully-managed fishing grounds in the Arctic and Barents Sea.

Stringent, science-based and strictly enforced regulations have ensured good management of cod and haddock stocks in these waters. Some of these stocks are in the best condition recorded, with records dating back 70 years!

RAMMI

Rammi make their catches in the clean cold waters of the North Atlantic where fishing is carefully regulated by a quota system.

Management of the fishing grounds around Iceland is based on allocating a fixed share of the permitted catch of the various species to each vessel. All decisions are based on scientific criteria and the careful work of the Marine Research Institute. Protection of the fish in Iceland's fishing grounds is based on three main methods;

1. Catch regulations which are developed for each utilizable fish stock. This involves deciding yearly how large a proportion of the stocks may be allocated for fishing.
2. Regulations controlling the fishing gear. Emphasis is placed on the efficacy of the equipment used, which means that effort is made to fish only those species and sizes that are required.
3. Protection and closing of specific areas to safeguard spawning or juvenile fish.

Glacialis

Glacialis cod and haddock are harvested in the icy Arctic waters of the Barents Sea and Norwegian Sea. Vessels that fish for the Glacialis brand ensure that they;

1. Fish only at sustainable levels
2. Work to minimise the impact they have on the fisheries' ecosystems
3. Meet all local, national and international laws

The Solberg Super Trawler

Built on five levels, The Solberg super trawler is fitted out with the most advanced filleting, cutting, freezing and packing equipment designed to supply fillets to the highest possible standards. It has its own electrical generator, a system to produce fresh water and a cold store with a capacity for 900 tonnes of packed product.

This impressive trawler supplies us exclusively, as a member of The Q Partnership, with RAMMI oCeanPremium Skinless & Boneless fillets of tightly graded Cod and Haddock packed in 2x10kg. Plus Pin-Bone in, standard gradings.

oCeanPremium Skinless & Boneless, Tightly-Graded Cod & Haddock

RAMMI oCeanPremium is available in the following sizes

- 4-6oz,
- 6-8oz,
- 8-10oz
- 10-12oz
- 12-16oz.

The Benefits of Frozen-at-Sea (FAS) Fish

FAS Fish are caught, processed and quick frozen on the trawler. Once on board, each fish is filleted, graded, packaged and carefully frozen within five to six hours. Some of the newer trawlers can process within two hours!

The FAS method of processing means that all nutrients, freshness, goodness and taste are retained without compromising quality.

1. As a means of long-term preservation and storage, it greatly extends the shelf-life.
2. The stocks are well-managed, readily available and are natural wild rather than farmed.
3. There is minimal waste as you only have to defrost the fish as and when you need it.

How to Thaw Frozen-at-Sea (FAS) Fish

FAS Fish should be thawed in a way that maintains the characteristic properties of the product. Key guidelines are;

1. Ensure product, water and air temperature are monitored throughout thawing cycle.
2. Thaw in a refrigerator.
3. Product temperature should be kept close to the temperature of melting ice i.e. as close to zero degrees centigrade as possible.
4. Allow fish temperature to equalise after thawing as various parts of the product will be at different temperatures.
5. Ensure the timescale is appropriate for thawing the fish. Do not try to thaw so quickly that product safety and quality is compromised. Ensure thawed fish remains at chilled temperatures (as close to zero degrees centigrade as possible).
6. Do not fry under-thawed product.
7. Do not use water to thaw Frozen-at-Sea (FAS) Fish.

INCREASE YOUR SALES!

It's written in the cards!

If you don't offer card payments, you'll almost certainly be missing out on valuable sales. Many people have card banking on their phone.

Did you know?

- ▲ Debit cards were used 13.2bn times last year, up 14%, whilst cash transactions fell by 15%, according to UK Finance, the UK banking and financial services sector trade body.
- ▲ Contactless card use almost doubled to 5.6bn transactions.
- ▲ Contactless is more popular than UK chip and pin transactions – payments technology company Worldpay.
- ▲ 63% of people in the UK now use contactless payments.
- ▲ 3.4m people almost never use cash and rely on cards.

What does this mean for your business and what are the benefits of offering card payment?

- | | |
|---------------------------|---|
| More customers | Accepting any card payment, whether it's contactless or chip and pin, will increase your customer base. You could be losing potential sales where customers pass you by on impulse to choose another outlet that accepts cards. More customers mean more sales! |
| Remain competitive | Your competitors are already accepting cards! Offering the same service will help you to remain competitive and profitable. |
| More sales | Cards encourage impulse buying. Customers want to complete their purchases quickly and easily without having to run to a cash point machine. Studies have proven that customers spend more when they're paying by card, especially when it comes to impulse purchases. |
| Customer Service | Your customers want to choose the method of payment that's most convenient and beneficial for them. Cards are not only easy, but can also offer points, mileage or rewards that encourage customers to use them for as many purchases as possible. |

FREE Posters Available

If you're offering card payments, make sure your customers and potential customers know about! Ask your sales contact for one of our **FREE OF CHARGE** posters.

How can we help with portion control?

Maximise your profits with Drywite Stainless Steel Portion Control Chip Scoops

Portion Control Packaging - 2 Compartment Boxes

Using portion control packaging can also help ensure the portion sizes you plan to serve are the portion sizes your customers receive!

Corrugated Fish & Chip boxes, and in particular 2 compartment boxes, really do give guaranteed portion control. They're available in three sizes and, as well as controlling portions and maximising your margin, they have other key benefits;

- Professional presentation
- Built-in divider stops the Fish & Chips sticking together
- Airholes allow steam to escape - keeps the batter crisp
- Recyclable & Biodegradable
- Designed for Fish & Chips

Lite-BITE®

We developed the Lite-BITE concept and packaging to provide our customers with the ability to serve a more tightly controlled portion of Fish & Chips and to attract customers who are normally put-off by larger portion sizes.

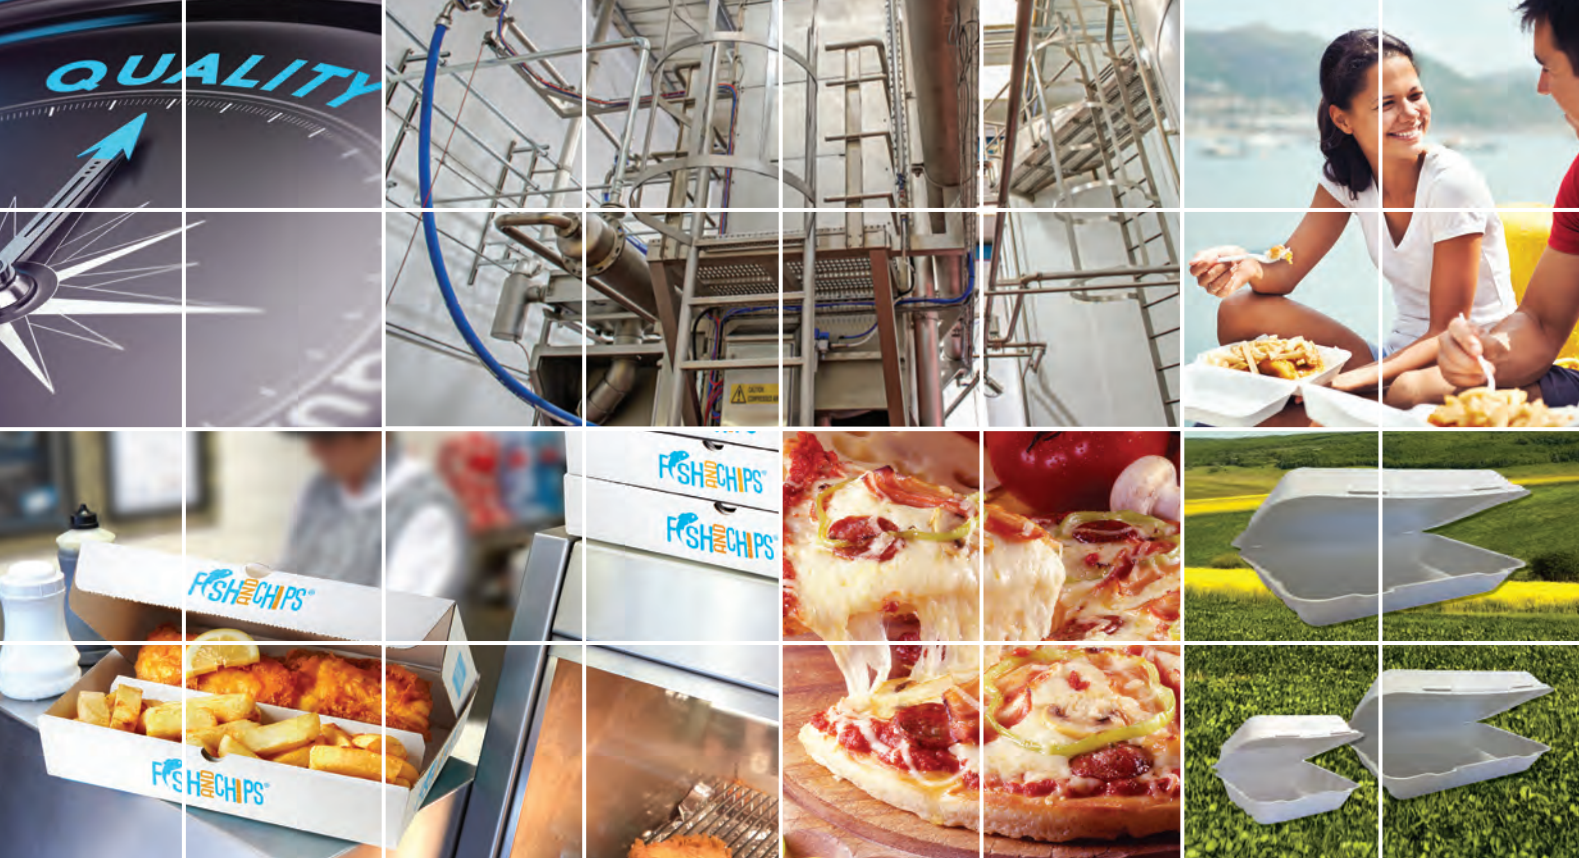

It really works by increasing lunchtime sales. It's the perfect size for a 4oz jumbo sausage too!

The Lite-BITE is great for your profits and for your customer's choice.

FREE POSTER AVAILABLE

Interested in portion control? Ask your sales contact how we can help.

We are ISO 9001 accredited. Good news for you and your customers!

The ISO accreditation is only awarded to companies that demonstrate that they are developing, documenting and implementing their Quality Management System.

This accreditation is achieved by successfully completing regular audits by an independent third-party registrar.

Every employee in every department is engaged in meeting our standards and achieving a process of continual improvement. We have a team of Internal Auditors that audit every department on an ongoing basis to make sure that this process is happening. Twice a year qualified External Auditors come in to check that we are doing what we say we will do.

Why is our accreditation good for you?

- You can be reassured that we buy from reliable suppliers and thoroughly check their credentials.
- We hold all current product specifications on file and keep them updated.
- We have controls in place regarding best before dates and damaged goods, so your goods arrive in premium condition.
- We carry out a minimum of two dummy product recalls every year to ensure our teams are well versed in the event of any official product recalls

- Working in tandem with our ISO quality objectives, we adhere to and follow the principles of HACCP (Hazard Analysis & Critical Control Points). This system enables us to identify specific hazards and allow the correct controls to be applied to ensure the safety of the food we sell.
- Our 'frozen chain' is important to us and we protect our frozen goods through implementing high standards. Our freezer equipment is alarmed in case of any break downs and we have back-up generators in case of power cuts in our cold stores. We also monitor all vehicle fridges 24/7 and provide a temperature print out at the delivery point.

ISO accreditation means that you can reassure your customers, EHO and Trading Standards that your supplier is ISO accredited. ISO is a mark of quality that you can rely on.

We are working to the requirements of ISO 14001 – the Environmental Standard

In 2018 we opened our Used Cooking Oil Recycling Plant in Gateshead and a key condition was to prove that we were working to the requirements of the ISO 14001 Environmental Standard. We have always been mindful of the potential of our environmental impact as a business, but complying to this requirement helped us to formalise and improve upon everything we do in relation to our environmental impact. We believe that good environmental management not only makes good business sense, it's also about doing the right thing.

Working with Environmental Consultants we evaluated the environmental aspects and impacts of our business and set ourselves key objectives to improve our green ways of working:

- Turning the used cooking oil that we collect into an energy source.
- Reduction of waste products and an improvement of our recycling rate.
- Development of more environmentally friendly products.
- Promotion of energy and resource conservation.
- Control of chemical substances and a reduction in the volumes we use.

To achieve these objectives, we developed an environmental management system that has seen a wide variety of targets implemented. Successes have included:

- We have over 1,000 solar panels at our depots, annually generating 200,000 KW of electricity.
- We maximise fuel consumption and minimise harmful emissions.
- We have developed Fold IT Bin It recyclable packaging to reduce waste volume... and that's just a small example of our commitment to promoting more environmentally friendly packaging and how packaging is used.
- Marketing uses only FSC approved resources for publishing marketing materials.
- The whole company makes every effort to recycle and separate into the different waste streams.
- We hold RSPO certification, which demonstrates that we supply certified and sustainable palm oil products.
- Our Used Cooking Oil collection division is ISCC (international sustainability and carbon certificate) accredited.
- We have formalised our waste management policy so you can be confident that we only deal with accredited waste removal suppliers.

Most importantly we are now processing the used cooking oil that we collect into an energy source. We have produced a poster that you can display to tell your customers that you are part of this environmentally virtuous 'cradle to cradle' cycle.

As a family business, serving thousands of customers and employing over 150 people, we have a responsibility to reduce our environmental impact both locally to our depots and in our distribution areas - this is one of our **key commitments**.

We want to ensure that future generations enjoy the same quality of life that we enjoy today.

We want to ensure that future generations enjoy the same quality of life that we enjoy today.

What's Cooking?

Is **THE** exhibition for anyone involved in the Fish & Chip and Fast Food Markets – owners, managers, friers.

Everyone is welcome!

It's organised and managed by Henry Colbeck and a visit is a guaranteed way to keep up-to-date with all the latest news, products, and services, in fact, everything that is going-on in Fish & Chips and Fast Food!

The venue for the exhibition alternates between three amazing locations;

- Scotland
- Tyneside
- Yorkshire

so you could plan a visit and have a fabulous weekend away too!

If you haven't been to one of our exhibitions before, here's just a taste of what you can expect;

More than just a supplier!

IT'S TIME TO FRY!

IS YOUR MISSION TO FRY THE BEST?

Then choose a Secret Agent that's always ahead of the pack. The highly classified Q Frying Oils & Fats Team deliver Choice, Performance & Quality. From high performance vegetable & sustainable palm oils, to full flavour, longer life deodorised dripping. Meet the Elite! Our Team of Special Frying Agents...

THE D TEAM (DRIPPING).

Q 10.8 - Longer Frying Life.

SKILLS: Refined & deodorised quality beef dripping from Europe. Easy to handle 4 x 2.5kg.

MISSION: Looking for a consistently good dripping with an extended frying life? Choose Q 10.8.

Q BRONZE - Improved Frying Performance.

SKILLS: Refined & deodorised high standard beef dripping from Germany. Includes antioxidants to resist oil breakdown. 12.5kg.

MISSION: Looking for a long-lasting dripping without the frying odour? Choose Q Bronze.

Q TORENO - Premier Jus for Premier Results.

SKILLS: Refined & deodorised Irish Premier Jus dripping. Made only from harder caul & kidney fat (no soft body fat) to withstand higher frying temperatures. 2 x 5kg (12.5kg in Scotland).

MISSION: Looking for long lasting, finest quality Irish dripping? Choose Q Toreno.

QXL - Frying Excellence.

SKILLS: Refined & deodorised premium grade beef dripping from Europe. Easy to handle 4 x 5kg.

MISSION: Looking for a reliable dripping that produces traditional tasting fried food? Choose Q XL.

THE P TEAM (PALM).

Q PLATINUM - Power & Performance.

SKILLS: A high quality blend of two all-veg frying oils for a longer life. Resistant to breakdown during use. No trans fats. 12.5kg.

MISSION: Looking for an all-veg oil that resists breakdown in a busy environment? Choose Q Platinum.

Q SILVER - Extreme Quality for Extreme Temperature.

SKILLS: A high quality blend of 3 all-veg frying oils for a longer life. No trans fats. 12.5kg.

MISSION: Looking for a vegetable oil that compares with dripping on taste and gives a longer frying life? Choose Q Silver.

Q GOLD - The Natural Choice.

SKILLS: Naturally coloured, premium Palm with no hydrogenated fats. RSPO certifiably sustainable. Easy to handle 2 x 5kg.

MISSION: Looking for a naturally coloured quality palm that's fully sustainable? Choose Q Gold.

Q PALM - The Premium Palm.

SKILLS: Low in trans fat, no hydrogenated fat - RSPO certifiably sustainable. 12.5kg.

MISSION: Looking for a straightforward palm oil that's sustainable? Choose Q Palm.

Q PLUS - Long Lasting.

Vegetable Frying Fats

Q Platinum

Power & Performance

Q Platinum brings together a high-quality blend of two all-vegetable frying oils to produce an oil with an extended frying life.

This popular frying medium is all about power and performance; it's a heavy duty frying oil for heavy duty frying operations.

The great news is that this unique blend of palm and hydrogenated palm is purely made from certified, sustainable, segregated palm oil – and it's trans fat free too.

If you're looking for an extended life all-veg oil that will resist breakdown, then try Q Platinum.

Size: 12.5kg

Code 001769

Q Palm

The Premium Palm

Q Palm Oil is a premium palm produced from fully certified, sustainable, segregated palm oil.

Q Palm produces consistently great results and contains no hydrogenated fat.

If it's a straightforward palm oil that suits your needs, with the added benefit of sustainability, then Q Palm is the answer.

Size: 12.5kg

Code 000879

Q Silver

Extreme Quality for Extreme Temperature

Q Silver is a unique mix of three top quality, all vegetable, frying oils.

This quality frying medium is designed to perform at high temperatures and to perform under some of the most demanding frying conditions.

Q Silver has a distinctive savoury taste and aroma that will appeal to those currently using dripping, who want to change to an all-vegetable product.

The great news is that this unique blend of palm, hydrogenated palm and rapeseed uses only certified, sustainable, segregated palm oil – and it's trans fat free too.

Size: 12.5kg

Code 001768

Q Gold

The Natural Choice

Q Gold is produced from fully certified, sustainable, segregated palm oil.

It's a natural colour, premium quality palm with no hydrogenated fats.

Packed in 2 x 5kg easier to handle blocks.

Size: 10kg - 2 x 5kg

Code 000898

We Only Sell Palm Oil from Certified, Sustainable, Segregated Sources

Vegetable Frying Fats

Liquid Vegetable Oil

eclipse® High Oleic Sunflower Oil Bottle-in-a-Box

eclipse® is produced from a very specific strain of sunflower seeds which make it high in monounsaturated fat. It is this high concentration of monounsaturates that makes it ideal for deep frying.

Longer frying life
Low in saturated fat
No hydrogenated fat
No additives

Size: 20 litres
Code 000158

Colbeck Sunflower Oil Bottle-in-a-Box

A pure, bright and clear oil with no additives.

It is flushed with nitrogen to eradicate all traces of oxygen which assists in prolonging the frying life of the oil.

Size: 20 litres
Code 000210

Frymax Liquid Oil

Frymax Liquid Oil is a longer life liquid vegetable oil and comes in an easy to use, lightweight and pourable 10 litre bottle.

A blend of Rapeseed and Palm Oil to create a lighter taste than traditional Rapeseed.

Each case contains 2 x 10 litre bottles of Frymax Liquid Vegetable Oil.

Size: 2 x 10 litres
Code 000886

Colbeck Rapeseed Oil Bottle-in-a-Box

A quality, refined and deodorised oil that is ideal for both deep and shallow frying.

It is flushed with nitrogen to eradicate all traces of oxygen which assists in prolonging the frying-life of the oil.

It contains an anti-foaming agent, E900 (DMPs), which also helps to give the product an extended frying-life.

Size: 20 litres
Code 000240

Perform Long Life Vegetable Oil Bottle-in-a-Box

- 7% Saturated Fat
- Up to 30% Longer Frying Life
- No hydrogenated Fat

Perform is a fully refined and deodorised rapeseed oil with only 7% saturated fat. It contains a natural anti-oxidant that delivers up to 30% longer frying life than standard rapeseed oil.

It is flushed with nitrogen to eradicate all traces of oxygen which assists in prolonging the frying-life of the oil.

Size: 20 litres
Code 000762

Lard

Brozzi Italian Lard

High quality Italian imported lard.

Can be used in all foods where pure, neutral, odourless, tasteless and colourless fat is required.

Especially suitable for production of typical Italian breads, pizzas, oven-baked products and very dry and crisp frying.

Size: 12.5kg
Code 003364

Semi-Solid Vegetable Oil

Q Plus

Long Lasting!

Q Plus is a semi-solid frying oil made from a blend of two premium quality frying oils; palm and rape seed. It has no hydrogenated fats and the specific blend of Q Plus gives it a frying life which is three times longer than that of standard liquid vegetable oil.

It's the ideal choice if you're currently using an ordinary liquid vegetable oil and need a product with a longer frying performance.

Perfect for Southern Fried Chicken pressure cookers.

Size: 15 litre plastic tub
Code 001761

2 Compartment Corrugated Boxes

For “Pan-Perfect” Presentation and Portion Control 

HOOK & FISH RANGE

Two compartment boxes have increased dramatically in popularity in recent years because they provide the, virtually, perfect way to serve and to transport Fish & Chips.

This makes them ideal for both takeaway and home delivery. Keeping the chips separated from the fish, but still in the same box, prevents them from sticking to the batter and causing it to become soft and soggy as it is no longer in close contact with moisture from the chips. As well as providing the very best presentation of Fish & Chips, two compartment boxes also offer a genuine portion control management system. The two compartments provide very specific sections; one for the fish and one for the chips so serving staff can no longer pile them high and give away profits.

Code 026593

RED, WHITE & BLUE RANGE

Are you looking for a new cost effective range of 2 compartment corrugated boxes for your business – then look no further than our Red, White & Blue range, which comes in 4 different sizes.

From traditional small, medium and large, to a complementary mini single compartment box – great for small portion controlled meals and a range of sides.

As you'd expect from Henry Colbeck, we want to tell you that in order to meet the price point, the corrugate we've chosen isn't the one used in our more premium ranges, but it's a good packaging option and 100% fit for purpose for takeaway meals. We like to give our Customers choices in their business.

Single Compartment Corrugated Boxes

HOOK & FISH RANGE

The Hook & Fish Fold It, Bin It, and corrugated boxes are great quality and perfect for fast food and catering businesses. The 'Fold It, Bin It' box has been designed so customers can easily fold their used boxes once they are empty, and they then take up far less space in the bin!

The range has been designed specifically for take-away or home delivery of cooked or uncooked food. They are supplied flat for easy storage.

- Corrugated box allows product to breathe stopping the food from sweating but still retaining heat
- Fold It, Bin It* (easy disposal)
- Portion control
- Suitable to fit a side order container (e.g. peas, curry or gravy)
- Supplied flat – easy to assemble
- Air holes allow steam to escape and keep the batter crisp and chips fresh
- Biodegradable
- Made from 90% recycled material & fully recyclable 

* except the 'Chip Box'

PIZZA & CALZONE BOXES

Whether you're looking for packaging for pizza, calzone – or munchie boxes, we've got something to suit.

Manufactured from high quality single wall corrugated board with double reinforced sides and an integral hinged lid to provide superior strength and secure for take away pizzas. Our pizza boxes are easy to make up, with single piece construction and a cut away hole at the front, making it easy for your customer to open.

Full Colour Range:

Bring pizza to life and add a new dimension to your packaging with a quality coloured pizza box. The message on the box is 'deliciously hot and tasty pizza' and it shows a traditional tasty pizza image on the front.

Red, White & Green Range:

Fly the flag for the home of pizza, with our quality red, green and white pizza boxes. The message on the box is 'Enjoy Your Pizza' and it shows a contemporary pizza image.

Plain Brown Range:

Our brown range suggests a rustic, handmade food feel and gives you the opportunity to brand up your own boxes with stickers or stamps too.

THE EARTH TO GO BIO!

RECYCLABLE EXPANDED POLYPROPYLENE (EPP)

The Infinity® range is an innovation in sustainable food-to-go packaging – a replacement to banned single use plastics/polystyrene (SUP's).

Product Colour – WHITE OR BROWN?

Please note that at the time of going to print some lines in the Infinity range are being produced in white and some in brown. The intention is that all lines will be produced in white in the future. As the Single Use Plastics ban comes into force nationally, we understand the majority of the range will be produced in white (and our codes will change) – apologies in advance if the colour advertised in this brochure changes.

Ask your Sales contact for the most up to date information.

Hotpacs® are an impressive range of hinged boxes and trays that are perfect for keeping foods hot and ensuring food quality, freshness and taste.

Please note!

Welcome to kp Infinity™ taking Expanded PolyPropylene (EPP) into the future.

The Infinity® range is an innovation in sustainable food-to-go packaging

Food Retailer Benefits

- ☞ Resistant to hot oil and acids & alkalis
- ☞ Versatile, stackable, adaptable and durable
- ☞ Premium aesthetics
- ☞ Cost effective solution
- ☞ Made in the UK

Consumer Benefits

- ☞ Clear Actionable 'Recycle Me' message
- ☞ Keeps food hotter for longer
- ☞ Thermal resistance to touch
- ☞ Safe and hygienic
- ☞ Moisture resistant
- ☞ Microwavable

Sustainability Benefits

- ☞ Recyclable mono-material
- ☞ Food safety, hygiene and preservation
- ☞ Lightweight
- ☞ Energy efficient
- ☞ Reduced carbon footprint
- ☞ Reduced water consumption

Produced from sustainable and recyclable polypropylene

Cleaning Materials

Peelers

Bold Potato Peelers

- Stainless steel construction ensures a hygienic rust-free machine, for minimum maintenance
- Automatically lubricated heavy duty gearbox makes the peeling operation smooth and reliable
- The stainless steel peeling plate and drum lining can easily be removed for recoating when required, keeping service costs to a minimum
- Unique nylon brush fitted to bottom plate guards against blockages to the waste outlet reducing the amount of cleaning required
- Water inlet and waste outlet position can be varied to suit installation requirements
- WRAS Approved Class A air brake is fitted to the water inlet

Bold 28lb Potato Peeler

Capacity	12kg/28lbs
Output	300kg/660lbs per hour
Height	1170mm
Width (including side trap)	610mm
Code	048603

Bold 56lb Potato Peeler

The full bag capacity of the Bold 56 eliminates the need for operator to divide a bag before loading, this avoids the possibility of overloading which can occur with a smaller machine.

Capacity	25kg/56lbs
Output	620kg/1365lbs per hour
Height	1170mm
Width (including side trap)	720mm
Code	048607

Extra Tall Bold 56lb Potato Peeler

Code 048618

Chippers

Bold Chippers

- Stainless steel construction and a unique design cutting-action ensures maximum yield – “more chips, less bits”
- Easy to clean, no tools required with minimum maintenance
- Chip size can be changed in seconds or blades can be replaced individually
- Safety interlock switches are fitted to the hopper and knife block to protect the operator
- Supplied with a stand for bulk feeding into a large container or, as an optional extra, a detachable bucket shelf can be supplied

Bold Chippers

Height (including stand)	1195mm
Width	650mm

Bold Chipper with 14mm knife block

Code 048602

Bold Chipper with 17mm knife block

Code 048613

Bold Compact S1 Chipper

Code 048612

Mixer

Bold Batter Mixer

- Simple to use, just switch on and add ingredients to vortex around the whisk. One minute later you have a perfectly smooth, even batter
- Stainless steel construction ensures a hygienic, rust-free machine requiring a minimum of maintenance
- Designed specifically with batter mixing in mind, operating at one fixed speed, exactly the right speed for whisking
- Height 500mm
- Width 600mm
- 8 litre bucket
- Code 048695

Size 203mm x 203mm 8" squire

Code 041273

Gauze Lifters

Selecting the correct gauge of gauze lifter helps it to last longer.

If you use the wrong size mesh, the skimmer becomes clogged with a build-up of particles which can reduce efficiency and cause premature wear.

A medium grade 50 mesh should be used for small particles.

A fine grade 80 mesh should be used for fine particles

BRC Storage & Distribution Certificated

At Henry Colbeck, our prime objective is to provide our customers with the best service possible and for that service to reflect the passion we have for the Fish & Chip Market.

The accreditations that we work towards provide us with a quality framework that we use to monitor, maintain and constantly improve standards.

We hold the BRC Storage and Distribution Accreditation for Edible Oils which means that you can assure your Environmental Health Officer, Trading Standards and your customers that your supplier is committed to maintaining exacting standards of storage and distribution.
